-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 18 May 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-18, 20-32 and 34-36 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☒ Claim(s) 1-18, 20-32, 35 and 36 is/are allowed.

DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed have been fully considered but they are not persuasive.

2. As per claim 34, applicant argues that Polcyn does not teach discriminating a kind of noise duration based on a status of the sliding window because Polcyn teaches measurements within a sliding window and discriminating noise based on measuring voice signals and peak/average indicators without suggesting that the measurements are based on the status of the sliding window. This is not persuasive since the measurements of voice signals and peak/average indicators are occurring based on data within the sliding window and the discrimination of noise is based on these measurements.

3. As applicant's representative, Thomas Bean, had requested a call, a call was made to 212-940-8800 on 8/5/2005. Simon Bock and Mary who answered the phone and said that Thomas Bean was no longer with the firm and Mr. Bock said that a person would be assigned to call the examiner back later. Later, Brian Hennessey, called and indicated he was applicant's representative. I returned his call at 212-940-6311. Applicant's representative indicated that the noise is not periodic in the reference. The examiner indicated that, based on columns 13 and 14 of the reference, sometimes the buffers have noise and sometimes they have voice and thus the reference periodically teaches having noise in the buffers. Applicant's representative indicated that the reference does not teach that the timing signal represents a periodical noise duration. The examiner indicated that the buffers are 15ms and sometimes the 15ms buffer represents noise while at other times it represents voice. Applicant's representative indicated that there is

Art Unit: 2631

no sliding window in the reference. The examiner indicated that the buffers are the sliding window as different data are sliding through the buffers over time.

Response to Amendment

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 34, 39 are rejected under 35 U.S.C. 103(a) as being unpatentable over Polcyn USPN 5311588 in view of Long USPN 5991311 and Gatherer 5461640. The rejection of claim 34 also applies to claim 39. See prior action for details.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 2631

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
